President report, July 2016

Hello fellow members, welcome to the next club meeting on Monday July 4th. I will be giving a talk on how I grow my Paphiopedilums. Unfortunately I had a Paphiopedilums guest speaker in mind but too late in the year to book him, they need mostly a year's notice.

Thanks to Lynne Phelan for her interesting talk on Laelia Cattleyas. It is always interesting to see how other growers grow their orchids and quite often you can pick up some very good ways to grow your orchids.

Brian Coulton has had his Deep Brain Stimulation Operation on the 16th June. He has responded very well to the operation and expected back home Thursday 23rd June, resting and enjoying getting back into the greenhouse and growing his orchids.

I will have a slide show of some top quality Paphiopedilums to show you and give you an idea how beautiful these orchids are and quite easy to grow in our climate, especially the big bold beautiful exhibition types.

I will also, if time allows, give a talk and demonstration on how to prepare your orchids for Show. Remember our Winter show is but a few weeks away, 22- 23 July and I would love to see all our Novice growers place flowering orchids in the show.

The May Saturday 21st Bunnings BBQ went very well with takings of \$877.30. Many thanks to those helped out on the day and a big special thanks to Kate Willis for doing a double shift, that is 8am to 4pm, well done Kate. Remember all money goes to our club's events like our Winter, Spring and our Native Show prize money in particular.

Cattleya lovers, have a look at how John Hughes, a very well know Cattleya grower grows and shows his Cattleyas. Lots of very nice photos of quality Cattleyas.
